Introduction

This guide provides information about the evaluation process used in the underwriting and issuing of Medicare Supplement insurance policies. Our goal is to process each application as quickly and efficiently as possible while assuring proper evaluation of each risk. To ensure we accomplish this goal, the producer or applicant will be contacted directly by underwriting if there are any problems with an application.

Policy issue guidelines

All applicants must be covered under Medicare Part A and B in Texas; in all other states, only Part A is required. Policy issue is state specific. The applicant's state of residence controls the application, forms, premium and policy issue. If an applicant has more than one residence, the state where taxes are filed should be considered as the state of residence. Please refer to your introductory materials for required forms specific to your state.

Open enrollment

To be eligible for open enrollment, an applicant must be at least 64 ½ years of age (in most states) and be within six months of his/her enrollment in Medicare Part B.

Applicants covered under Medicare Part B prior to age 65 are eligible for a six-month open enrollment period upon reaching age 65.

States with under age 65 requirements

Illinois	All Plans are available. Coverage is guarantee issue if applied for within six months of Part B enrollment.
Kansas	All Plans are available. Coverage is guarantee issue if applied for within six months of Part B enrollment.
Kentucky	All Plans are available. No guarantee issue. All applications are underwritten.
Louisiana	All Plans are available. Coverage is guarantee issue if applied for within six months of Part B enrollment.
Mississippi	All Plans are available. Coverage is guarantee issue if applied for within six months of Part B enrollment.
North Carolina	Plans A and C available. Coverage is guarantee issue if applied for within six months of Part B enrollment.
Oklahoma	Plan A is available. Coverage is guarantee issue if applied for within six months of Part B enrollment.
Texas	Plan A is available. Coverage is guarantee issue if applied for within six months of Part B enrollment.

Selective issue

Applicants over the age of 65 and at least six months beyond enrollment in Medicare Part B will be selectively underwritten. All health questions must be answered. The answers to the health questions on the application will determine the eligibility for coverage. If any health questions are answered "Yes," the applicant is not eligible for coverage. Applicants will be accepted or declined. Elimination endorsements will not be used.

In addition to the health questions, the applicant's height and weight will be taken into consideration when determining eligibility for coverage. Coverage will be declined for those applicants who are outside the established height and weight guidelines.

Health information, including answers to health questions on applications and claims information, is confidential and is protected by state and federal privacy laws. Accordingly, Forethought Life Insurance Company does not disclose health information to any non-affiliated Forethought Life Insurance Company.

Application dates

- Open Enrollment – Up to six months prior to the month the applicant turns age 65
- Underwritten Cases – Up to 60 days prior to the requested coverage effective date
- West Virginia – Applications may be taken up to 30 days prior to the month the applicant turns age 65

Coverage effective dates

Coverage will be made effective as indicated below:

1. Between age 64 ½ and 65 – The first of the month the individual turns age 65.
2. All Others – Application date or date of termination of other coverage, whichever is later.

Replacements

A “replacement” takes place when an applicant terminates an existing Medicare Supplement/Select policy with a new Medicare Supplement policy. Forethought Life Insurance Company requires a fully completed application when applying for a replacement policy (both internal and external replacements).

A policyowner wanting to apply for a non-tobacco Plan must complete a new application and qualify for coverage.

If an applicant has had a Medicare Supplement policy issued by Forethought Life Insurance Company within the last 60 days, any new applications will be considered to be a replacement application. If more than 60 days has elapsed since prior coverage was in force, then applications will follow normal underwriting rules.

All replacements involving a Medicare Supplement Standard, Select or Medicare Advantage Plan must include a completed Replacement Notice. One copy is to be left with the applicant; one copy should accompany the application. The replacement cannot be applied for on the exact same coverage and exact same company.

The replacement Medicare Supplement policy cannot be issued in addition to any other existing Medicare Supplement Standard, Select or Medicare Advantage Plan.

Reinstatements

When a Medicare Supplement policy has lapsed and it is within 90 days of the last paid to date, coverage may be reinstated, based upon meeting the underwriting requirements.

When a Medicare Supplement policy has lapsed and it is more than 90 days beyond the last paid to date, the coverage cannot be reinstated. The client may, however, apply for new coverage. All underwriting requirements must be met before a new policy can be issued.

Medicare Select to Medicare Supplement Conversion Privilege

Policy owners covered under a Medicare Select Plan with Forethought Life Insurance Company may decide they no longer wish to participate in our hospital network. Coverage may be converted to one of our Medicare Supplement Plans not containing network restrictions. We will make available any Medicare Supplement policy offered in their state that provides equal or lesser benefits. A new application must be completed; however, evidence of insurability will not be required if the Medicare Select policy has been in force for at least six months at the time of conversion.

Telephone interviews

Random telephone interviews with applicants will be conducted on underwritten cases. Please be sure to advise your clients that we may be calling to verify the information on their application.

Pharmaceutical information

Forethought Life Insurance Company has implemented a process to support the collection of pharmaceutical information for underwritten Medicare Supplement applications. In order to obtain the pharmaceutical information as requested, please be sure to include a completed "Authorization to Disclose Personal Information (HIPAA)" form with all underwritten applications. This form can be found in the Application Packet. Prescription information noted on the application will be compared to the additional pharmaceutical information received. This additional information will not be solely used to decline coverage.

Policy delivery receipt

Delivery receipts are required on all policies issued in Kentucky, Louisiana, and West Virginia. Two copies of the delivery receipt will be included in the policy package. One copy is to be left with the client. The second copy must be returned to Forethought Life Insurance Company in the postage-paid envelope, which is also included in the policy package.

Premium

Calculating premium

Utilize Outline of Coverage

- Determine ZIP code where the client resides and find the correct rate page for that ZIP code
- Determine Plan
- Determine if tobacco or non-tobacco use
- Find age/gender - Verify that the age and date of birth are the exact age as of the application date
- This will be your base monthly premium

Tobacco rates do not apply during open enrollment or guarantee issue situations in the following states:

Illinois	North Carolina
Iowa	Ohio
Kentucky	Virginia
Louisiana	

Utilizing the Calculate your premium form

- Enter the base premium on line #1 and proceed with the instructions that follow.

Types of Medicare policy ratings

- Community rated – The same monthly premium is charged to everyone who has the Medicare policy, regardless of age. Premiums are the same no matter how old the applicant is. Premiums may go up because of inflation and other factors, but not based on age.
- Issue-age rated – The premium is based on the age the applicant is when the Medicare policy is bought. Premiums are lower for applicants who buy at a younger age, and won't change as they get older. Premiums may go up because of inflation and other factors, but not because of applicant's age.
- Attained-age rated – The premium is based on the applicant's current age so the premium goes up as the applicant gets older. Premiums are low for younger buyers, but go up as they get older. In addition to change in age, premiums may also go up because of inflation and other factors.

Enrollment/Policy Fee

There will be a one-time application fee of \$25.00 (\$6.00 in Mississippi) that will be collected with each applicant's initial payment. For a husband and wife written on the same application, \$50 in fees must be collected. This will not affect the renewal premiums. The application fee does not apply in West Virginia.

Completing the Premium on the Application

Premiums are calculated based upon the applicants exact age at the time of application, not their age as of the requested coverage effective date.

Initial Premium

- The amount in line #4 will be the amount you enter on the Premium Collected box located on the application.
- Circle the appropriate mode for the initial payment.

Renewal Premium

- Determine how the client wants to be billed going forward (renewal) and select the appropriate mode on the Renewal Mode section on the application.
- Indicate, based on the mode selected, the renewal premium. Monthly direct billing is not allowed.

NOTE: If utilizing Electronic Funds Transfer ("EFT") as a method of payment, please complete the Authorization for Electronic Funds Transfer form. If paying the initial premium by EFT, the completed authorization form must be submitted with the application. The policy will NOT be issued until the completed form is received.

Collection of Premium

At least one month's premium must be submitted with the application. If a mode other than monthly is selected, then the full modal premium must be submitted with the application.

NOTE: Forethought Life Insurance Company does not accept post-dated checks or payments from Third Parties, including any Foundations as premium for Medicare Supplement/Select.

Conditional Receipt and Notice of Information Practices

Leave the Conditional Receipt and the Notice of Information Practices with the applicant. The Conditional Receipt must be completed when provided to applicant if premium is collected.

NOTE: Do not mail a copy of the receipt with the application.

Shortages

Forethought Life Insurance Company will communicate with the producer by telephone, e-mail or FAX in the event of a premium shortage. The application will be held in a pending status until the balance of the premium is received. Producers may communicate with Underwriting by calling 1-877-492-5870 or by FAX at 1-800-497-6115.

Refunds

Forethought Life Insurance Company will make all refunds to the applicant in the event of rejection, incomplete submission, overpayment, cancellations, etc.

Our General Administrative Rule – 12 Month Rate

Our current administrative practice is not to adjust rates for 12 months from the effective date of coverage.

Application

Properly completed applications should be finalized within 5-7 days of receipt at Forethought Life Insurance Company's administrative office. The ideal turnaround time provided to the producer is 11-14 days, including mail time.

Application sections

The Medicare Supplement application consists of six sections that must be completed. Please be sure to review your applications for the following information before submitting.

Plan Information section

- Entire Section must be completed
- This section should indicate the Plan or policy form selected, effective date, premium paid, and the premium payment mode selected – both initial and renewal

Note: The effective date cannot be on the 29th, 30th, or 31st of the month.

Section 1 – Applicant information

- Please complete the client's residence address in full. If premium notices are to be mailed to an address other than the applicant's residence address, please complete the mailing address in full
- Age and Date of Birth are the exact age as of the application date
- Medicare Card number, also referred to as the Health Insurance Claim ("HIC") number, is required for electronic claims payment
- Height/Weight – This is required on underwritten cases

Section 2 – Miscellaneous questions

- Verify the applicant answered "Yes" to receiving the Guide to Health Insurance and Outline of Coverage, it is required to leave these two documents with the client at the time the application is completed
- Answer the tobacco question. (Refer to the Calculating Premium section in this guide for a list of states where tobacco rates do not apply during open enrollment or guarantee issue situations)
- Please indicate if the applicant is covered under Parts A and B of Medicare

Section 3 – Insurance policies/certificates

- If the applicant is applying during a guarantee issue period, be sure to include proof of eligibility
- If the applicant is replacing another Medicare Supplement policy/certificate, complete question #2 and include the replacement notice
- If the applicant is leaving a Medicare Advantage Plan, complete question #3 and include the replacement notice
- If the applicant has had any other health insurance coverage in the past 63 days, including coverage through a union, employer Plan, or other non-Medicare Supplement coverage, complete question #4
- Verify if the applicant is covered through his/her state Medicaid program

Section 4 – Health questions

- If the applicant is applying during an open enrollment or a guarantee issue period, do not answer the health questions or prescription information
- If applicant is not considered to be in open enrollment or a guarantee issue situation, all health questions must be answered, including the question regarding prescription medications

NOTE: In order to be considered eligible for coverage, all health questions must be answered "No".

For questions on how to answer a particular health question, see the Health Questions section of this guide for clarification.

Section 5 – Signatures

- Signatures and dates: required by both applicant(s) and producer. The producer must be appointed in the state where the application is signed

NOTE: Applicant's signature must match name of applicant on the application. In rare cases where applicant cannot sign his/her name, a mark ("X") is acceptable. For their own protection, producers are advised against acting as sole witness.

- If someone other than the applicant is signing the application (i.e., Power of Attorney), please include copies of the papers appointing that person as the legal representative

Health questions

Unless an application is completed during open enrollment or a guarantee issue period, all health questions, including the question regarding prescription medications, must be answered. Our general underwriting philosophy is to deny Medicare Supplement coverage if any of the health questions are answered "Yes". For a list of uninsurable conditions and the related medications associated with these conditions, please refer to the next two sections in this guide.

There may, however, be situations where an applicant has been receiving medical treatment or taking prescription medication for a long-standing and controlled health condition. Those conditions are listed in health questions 8, 9 and 10.

A condition is considered to be controlled if there have been no changes in treatment or medications for at least two years. If this situation exists and you would like consideration to be given to the application, answer the appropriate question "Yes," and attach an explanation stating how long the condition has existed and how it is being controlled. Be sure to include the names and dosages of all prescription medications.

If you have questions about the interpretation of health questions 6 and 7 on the application, please see the information below.

Health questions 6 and 7 on the application:

People with diabetes mellitus that require, or have ever required, more than 50 units of insulin daily, or people with diabetes (insulin dependent or treated with oral medications) who also have one or more of the complicating conditions listed in question 6 on the application, are not eligible for coverage. For purposes of this question, hypertension (high blood pressure) is considered a heart condition. Some additional questions to ask your client to determine if he/she does have a complication include:

1. Does he/she have eye/vision problems?
2. Does he/she have numbness or tingling in the toes or feet?
3. Does he/she have problems with circulation? Pain in the legs?

Consideration for coverage may be given to those persons with well-controlled cases of hypertension and diabetes. A case is considered to be well controlled if the person is taking less than 50 units of insulin daily or no more than two oral medications for diabetes and no more than two medications for hypertension. A combination of less than 50 units of insulin a day and one oral medication would be the same as two oral medications if the diabetes were well controlled. In general, to verify stability, there should be no changes in the dosages or medications for at least two years. Individual consideration will be given where deemed appropriate. We consider hypertension to be stable if recent average blood pressure readings are 150/85 or lower.

Health question 8 on the application:

Malignant Melanoma is considered an internal cancer. Applicants with this type of cancer are not eligible for coverage. Other types of cancer, such as basal cell, are not considered internal.

Uninsurable health conditions

Applications should not be submitted if applicant has the following conditions:

ARC	Kidney disease requiring dialysis
Cirrhosis	Lateral Sclerosis (ALS)
Chronic Obstructive Pulmonary Disease (COPD)	Lupus - Systemic

- Taking any medication that must be administered in a physician's office

Mailing applications to prospects

Mailing a completed application adds a few steps to the normal sales process. Below is a description of the necessary steps.

The Facts

When face-to-face interviews aren't possible

Face-to-face interviews are always preferable, however, there will be times when you cannot meet with prospects in person. When necessary, and with the prospect's consent, you may conduct the interview over the phone and mail the completed application to the prospect.*

This option is to be used only with people who have responded to lead-generation material or with whom you have ongoing client relationships. It is not appropriate for cold calling as national and corporate do-not-call rules and other compliance requirements apply.

The sales process

The method for selling Medicare Supplements doesn't change: Call a lead, review coverage, ask for the sale, complete and sign the application, submit the business, deliver the policy. The difference is that parts of the sales process may be conducted via the telephone instead of face-to-face. Consequently, there are a few more steps, outlined on the next two pages, to complete the sale.

Improve time service

Submitting complete and accurate information ensures quick timely service. Other factors are:

- You must be licensed to sell in the state where the prospect is a resident
- The producer who solicits the business must sign the corresponding application
- You cannot sign blank applications
- It is not acceptable to mail blank applications, brochures and outlines as prospecting material

Spot check for customer satisfaction

To ensure that customers who complete Medicare Supplement applications over the phone perceive this process as positive and that it's followed correctly, Forethought Life Insurance Company will call a portion of these applicants to:

- Verify the content and accuracy of the information submitted
- Determine their overall satisfaction level
- Confirm that producers followed this process

*Applies only to Forethought Life Insurance Company's Medicare Supplement products and does not change the current underwriting requirements for other Forethought Life Insurance Company products.

The Process

Please complete the following steps when you conduct the Medicare Supplement sales interview over the phone and mail the completed application to the prospect:

Step 1 – Call the prospect that responded to a lead.

When you receive a lead, telephone the person to discuss the benefits, rates and answer questions. Attempt to schedule a face-to-face appointment to review details, ask for the sale and apply for coverage.

If the prospect prefers to continue the sales process on the phone, continue to Step 2.

Note: You must be licensed to sell in the state where the prospect is a resident.

Step 2 – Communicate the process.

If the prospect wants coverage and prefers to apply for a policy over the phone instead of in person, explain the process before proceeding to Step 3:

1. Producer asks the prospect the questions on the application and required forms.
2. Producer mails the completed application and forms to the prospect for review and his/her signature.
3. Prospect carefully reviews the application and forms for completeness and accuracy and signs them.
4. Prospect returns the application, forms and premium in the provided postage-paid envelope.
5. Producer verifies all the required forms are completed and signed.
6. Producer submits the application and required forms through the usual channel.
7. When issued, the producer delivers the policy according to current policy delivery guidelines.

Step 3 – Complete the required forms over the telephone.

Ask the prospect all the questions on the application, replacement notice and state special forms (if needed) and print the answers. Repeat his/her responses for accuracy.

Note: Privacy requirements prohibit discussing eligibility for other products over the telephone.

Step 4 – Mail forms to the prospect.

Place the following in an envelope and mail to the prospect:

- Cover letter (attach your business card):
 - Indicating which forms to sign and what to return to you
 - Asking the prospect to verify all information including his/her Medicare card number, to make necessary corrections and initial changes
 - Inviting the prospect to contact you with any questions
- Application and forms (replacement notice and state special forms, if needed) with signature areas and premium highlighted
- Outline of Coverage, Guide to Health Insurance for People with Medicare
- Postage-paid addressed envelope

Note: Plan availability and premium rates are based on when the application is signed. The producer must communicate changes in Plan availability or premium to the prospect before submitting the forms to Forethought Life Insurance Company.

Step 5 – Prospect reviews and signs forms.

Once the prospect receives the application and forms, he/she:

- Verifies the responses and initials any corrections
- Signs the application and forms as highlighted
- Returns the application and forms to the producer in the provided envelope

Step 6 – Verify and sign forms.

When you receive the envelope from the prospect, you:

- Check that you have the first premium payment and the completed and signed application and forms
- Verify that the prospect initialed any changes
- Sign the required items
- Send the Premium Receipt to the applicant

Note: The producer who solicited the business must sign the application.

Step 7 – Submit for processing.

Submit the business (application and forms) in the usual manner as noted in the application pack.

Step 8 – Deliver the policy according to current policy delivery guidelines.
